*Presidents Corner*

**Happy August! Last month, we were most delighted to host Mr. Rob Carey, Department of the Navy CIO, as our speaker.** His topic was entitled ‘the future of the Naval Networking Environment’. Mr. Carey, a leader of the Navy C5I community, took the time to specifically drive down to meet with us for the day. It was an informative and lively presentation and discussion! As he transitions as the DON CIO to his position at Fleet Cyber Command (FLTCYBERCOM), we wish him continued success.  
**DON CIO suggested reading: “Who says Elephants Can’t Dance” by Louis V Gerstner**

**Our speaker this month, 10 August, is Rear Admiral Ned Deets, USN. He is the Commander Naval Network Warfare Command and his topic is “Network Operations Alignment.”** I can promise you will walk away with a different perspective and a better understanding of the challenges he faces in today’s environment. We are honored that he could take time away from his busy schedule to join us. We look forward to hearing his perspectives and insight to align Navy network operations.

### Announcing the Old Dominion University Business Gateway

*VATPDC becomes the ODU Business Gateway – New Name, More Resources*

Noting the university's commitment to transform the way higher education interacts with businesses and become the "go to" place for solutions in the Commonwealth, Old Dominion University officially launched the ODU Business Gateway, a business-friendly entry point to the intellectual capital, innovative technologies and world-class infrastructure of the university.

One of the six priorities in Old Dominion University's recently developed strategic plan is to increase opportunities for engagement with the community: to transform the way businesses interact with ODU and to become the "go to" place for providing solutions for the private and public sectors across Hampton Roads and throughout the Commonwealth.

The ODU Business Gateway provides a single, consistent entry point to the intellectual capital, innovative technologies and world-class infrastructure of the University.

Old Dominion University is proud to be one of the first institutions to take such a significant step forward to support Governor McDonnell's initiative to position Virginia as a leader in productive and solution-oriented relationships between businesses and higher education. The activities of the Business Gateway will have a direct impact in creating jobs, encouraging capital investment, and it is equally vital to business creation, attraction, and retention efforts right here in Hampton Roads.

The recently completed [Comprehensive Economic Development Strategy](#) (CEDS), led by the Hampton Roads Partnership, highlights the importance of University-Business collaborations. The CEDS also looks toward the regional universities to help create a culture of innovation

through the establishment of Centers of Excellence, such as ODU's efforts in modeling and simulation, bioelectrics, alternative energy, and sensors.

The Business Gateway was built on the foundation of the exceptionally successful Virginia Applied Technology and Professional Development Center (VATPDC). This Center has a long history of extending the talent and expertise of the Batten College of Engineering and Technology to help companies large and small.

Old Dominion University is dedicated to bringing together the top minds, most innovative technologies and state-of-the-art facilities to help solve problems, expand capabilities, and create new ventures. They are committed to being the intersection where ideas meet and results happen. *That* is Idea Fusion. And the ODU Business Gateway is just the beginning.

### **Small Business Corporate Table Sponsorship**

The Small Business committee is promoting a Corporate Table Sponsorship at the Monthly Luncheons. Have you given consideration to sponsoring a corporate table, but found the entire price to be too consuming? We would like to offer Small Business firms the opportunity to split the annual cost of \$2000, for a one year obligation. This would include two seats at the table, a company logo sign displayed on the table, and a one slide presentation included in our scrolling marquee (played during the networking social before each luncheon).

### **Would you like to join the AFCEA International Small Business mailing list?**

To receive prior notification of upcoming events via email, please send your name, email, and company name using this link:
