**AFCEA HR Chapter's Education & Scholarship News**

The AFCEA HR Education and Scholarship committee has had a great year so far. We are preparing for our final

educational program of 2011, the Science Teaching Tools Awards (STTA) program. Please support the Golf Tournament so we can have an even bigger and better year next year!!

We are working on two new initiatives for 2012:

**An AFCEA Student Organizations Sub-Chapter at Old Dominion University (ODU).**

- The Hampton Roads Chapter would provide professional networking and mentor these college age students.
- Benefits to students - This draws Young AFCEANs into the association before they join the work force, while they are still focused on education.
- Benefits to Chapter - Strengthens relationship between AFCEA Hampton Roads chapter and ODU with the faculty and the students. Such a relationship is a good value proposition for ODU because one can link programs such as internships with member companies, assistance with job placement after graduation, scholarships, cooperative projects and others.
- Benefits to your company - Additional quality source of quality workers.
- If you are interested in getting involved, please contact Mary Yager at [scholarships@afceahamptonroads.org](mailto:scholarships@afceahamptonroads.org).

**Supporting Robotics programs at Southside Schools**, including private schools. We are making contact with those connected to public schools, but if you are aware of any other robotics programs, please have them contact Mary Yager at [scholarships@afceahamptonroads.org](mailto:scholarships@afceahamptonroads.org).

These new initiatives will require manpower and monetary support. If you, your company or your organization wants to partner with our Chapter to do more for STEM Education in the Southside Hampton Roads area, please contact me. These are great opportunities! We have such a huge need in the Hampton Roads area to encourage STEM Education. If you are interested in supporting the above opportunities or any of our Education and Scholarship programs, please contact Mary Yager at (757) 464-5252 or email at [scholarships@afceahamptonroads.org](mailto:scholarships@afceahamptonroads.org).

**Science Teaching Tools Awards (STTA)**

The 2011 STTA application is now available and is open to all middle and secondary Math and Science teachers in

Southside Hampton Roads including both public and private schools. The completed applications must be received by Friday, September 23<sup>rd</sup>. The selection board will be held in early October and the STTAs will be awarded at the chapter's October luncheon. This is a tight schedule but it allows the money to get into the hands of the teachers early in the school year. Please help us get the word out. If you know any middle or secondary Math or Science teachers, please let them know to check out the STTA program on our web site or contact me. The STTAs are grants of up to \$1,000 to local middle school and high school teachers for such items or activities as consumable supplies, hardware, software, SMART boards, projectors or other equipment that will be used to enhance the learning environment in their STEM classrooms. Grants can also be used to fund extra-curricular activities sponsored by STEM teachers such as robotics clubs, math clubs, and FIRST competitions. This program is very important to our schools, teachers, and students to improve teaching the STEM disciplines on our local schools. For more information, please check the Chapter website or contact Mary Yager at (757) 464-5252 or email at [scholarships@afceahamptonroads.org](mailto:scholarships@afceahamptonroads.org).
